Subject Index

P = Proceedings of the Anatomical Society of Great Britain and Ireland
(*dem*: Poster demonstration)

Acetylcholine, The effects of acetylcholine on the outgrowth of mammalian spinal cord neurites in vitro (Owen & Bird) **180,** 371, *dem*

Achilles tendon, The development of fibrocartilage on the calcaneus and in the Achilles tendon of the rat (Rufai, *et al.*) **180,** 369, *dem*

Adrenal gland, Interactions in co-culture between previously dissociated fetal rat striatal neurons and explants of adrenal gland (Bird) **180,** 370, *dem*

The morphology of fetal rat adrenal gland cells maintained in roller tube cultures (Earl & Bird) **180,** 372, *dem*

Adrenal gland cortex, Noradrenergic innervation of the human adrenal cortex as revealed by dopamine-beta-hydroxylase immunohistochemistry (Charlton, *et al.*) **180,** 501

Adrenocorticotrophic hormone, Factors controlling the release of thymulin from the thymus: a role for ACTH (Kendall, *et al.*) **180,** 365, *P*

AER, The healing and consequences on skeletal pattern of wounds in the AER of the chick wing bud (McCullagh & Wilson) **180,** 354, *P*

Ageing, A quantitative description of the epididymis and its microvasculature: an age-related study in the rat (Markey & Meyer) **180,** 255

The effect of ageing on the lateral part of the nucleus of the solitary tract and the parabrachial nuclear complex of the mouse (Sturrock) **180,** 360, *P*

The effects of NGF on the survival in vitro of adult and aged mouse sensory neurons (Jiang & Smith) **180,** 364, *P*

Allometry, Comparative morphology of the mandibulodental complex in wild and domestic canids (Kieser & Groeneveld) **180,** 419

Alzheimer's disease, Changes in cerebral microvessel ultrastructure in Alzheimer's disease (Horwood & Davies) **180,** 355, *P*

Quantifying amyloid plaque types in Alzheimer's disease using computerised image analysis (Edwards) **180,** 358, *P*

Amniotic fluid, The effect of pooled human amniotic fluid on the proliferation of adult and fetal fibroblasts in vitro (Hart & Dyson) **180,** 379, *dem*

Amphibia, Characterisation of secondary spermatocytes in the marbled newt (*Triturus marmoratus*) (Fraile, *et al.*) **180,** 81

Amphibian larvae, Situs inversus in larvae of *Xenopus laevis* following excision operations (Bates) **180,** 372, *dem*

Amyloid plaques, Quantifying amyloid plaque types in Alzheimer's disease using computerised image analysis (Edwards) **180,** 358, *P*

Angiogenesis, In vitro quantitation of putative inhibitors of angiogenesis (Lyttle) **180,** 355, *P*

Comparison of the effects of moist and dry conditions on the process of angiogenesis during dermal repair (Dyson, *et al.*) **180,** 380, *dem*

Anterior cruciate ligaments, The human anterior cruciate ligament: histological and ultrastructural observations (Strocchi, *et al.*) **180,** 515

Antigen presenting cells, Distribution of antigen presenting cells in tonsillar epithelium (Perry & Mustafa) **180,** 365, *P*

Aortic arch, Postcranial morphological features of homozygous tetraploid mouse embryos (Kaufman) **180,** 521

Astroglia, Microvessel and astroglial cell densities in the mouse hippocampus (Shimada, *et al.*) **180,** 89

Axonemes, Intracellular axonemes within ciliated cells in the tracheal epithelium of domestic pigs (Radner & Stockinger) **180,** 25

Basal cells, Cellular and nuclear volumetric differences between basal cells in normal palatal and buccal epithelia (White, *et al.*) **180,** 382, *dem*

Biceps brachii, The structure of the insertions of the tendons of biceps brachii, triceps and brachialis in elderly dissecting room cadavers (Benjamin, *et al.*) **180,** 327

Relationships between structure and function of the insertions of the tendons of brachialis, biceps and triceps in man (Benjamin, *et al.*) **180,** 369, *dem*

Binds, The membrane surface of microvilli in the epithelium of the avian coprodaeum expands by changes in cell number and in the number and length of microvilli (Mayhew, *et al.*) **180,** 368, *P*

Bioengineering, Bioengineering of the skin (Marks) **180,** 362, *P*

Biomechanics, Principles and mechanisms of automatic rotation during terminal extension in the human knee joint (Fuss) **180,** 297

The extensor mechanism of the knee joint (Javadpour) **180,** 356, *P*

Birds, Gonadal sex differentiation in embryos of the quail (Perrin) **180,** 353, *P*

The action of oestrogen on the development of the gonads in male quail embryos (Perrin, *et al.*) **180,** 375, *dem*

Bone, In vivo osteogenesis by osteoblasts cultured in vitro upon demineralised rat bone (Mulholland) **180,** 357, *P*

Bone density, Distribution of subchondral bone density and cartilage thickness in the human patella (Eckstein, *et al.*) **180,** 425

Brain development, The effects of surgery on the developing brain (Muttalib) **180,** 354, *P*
Brain injury, The effects of surgery on the developing brain (Muttalib) **180,** 354, *P*
Elevated GAP-43 levels in neurons close to stab wounds in adult rat brain (Vaudano, *et al.*) **180,** 359, *P*

Calbindin immunoreactivity, Parvalbumin and calbindin immunoreactivity in the cerebral cortex of the hedgehog (*Erinaceus europaeus*) (Ferrer, *et al.*) **180,** 165
Calcaneus, The development of fibrocartilage on the calcaneus and in the Achilles tendon of the rat (Rufai, *et al.*) **180,** 369, *dem*
Calcitonin gene related peptide, Nerve fibre networks immunoreactive for substance P (SP) and for calcitonin gene related peptide (CGRP) increase dramatically in the rat superior cervical sympathetic ganglion following preganglionic denervation (Zaidi & Matthews) **180,** 363, *P*
Calcitonin gene-related peptide-like immunoreactivity, RT97- and calcitonin gene-related peptide-like immunoreactivity in lumbar intervertebral discs and adjacent tissue from the rat (McCarthy, *et al.*) **180,** 15
Canids, Comparative morphology of the mandibulodental complex in wild and domestic canids (Kieser & Groeneveld) **180,** 419
Capillarisation, The relationship between capillarisation and fibre types during compensatory hypertrophy of the plantaris muscle in rat (Degens, *et al.*) **180,** 455
Carbonic anhydrase, H^+K^+ATPase and carbonic anhydrase in gastric parietal cells (MacNaught & Firth) **180,** 368, *P*
Cardiac ganglia, Immunocytochemical localisation of substance P-like nerves in the cardiac ganglia of the monkey (*Macaca fascicularis*) (Tay & Wong) **180,** 239
Carotid artery, The vasa vasorum of the rabbit carotid artery (Barker, *et al.*) **180,** 225
Carotid Artery, The vasa vasorum of the rabbit carotid artery (Barker) **180,** 356, *P*
Cartilage, The development of fibrocartilage on the calcaneus and in the Achilles tendon of the rat (Rufai, *et al.*) **180,** 369, *dem*
Cartilage and related tissues in the fins and trunk of teleosts (Benjamin, *et al.*) **180,** 370, *dem*
Distribution of subchondral bone density and cartilage thickness in the human patella (Eckstein, *et al.*) **180,** 425
Castanospermine, The effects of castanospermine on fetal mouse cerebellar neurons in culture (Bird, *et al.*) **180,** 370, *dem*
Cat, Differences in the ultrastructure of Nissl bodies in cat thoracic motoneurons after exposing intercostal nerves to different experiments (Johnson & Sears) **180,** 377, *dem*
Fibre size and adaptations to spinal isolation and cyclical passive stretch in cat hindlimb (Roy, *et al.*) **180,** 491
Cebus apella, Anatomical aspects of the lacrimal gland of the tufted capuchin (*Cebus apella*) (Veiga Neto, *et al.*) **180,** 75
Cell culture, Interactions in co-culture between previously dissociated fetal rat striatal neurons and explants of adrenal gland (Bird) **180,** 370, *dem*
Cell kinetics, Cell kinetics of the skin (Wright) **180,** 361, *P*
Cerebellum, The effects of castanospermine on fetal mouse cerebellar neurons in culture (Bird, *et al.*) **180,** 370, *dem*
The effects of diethylcarbamazine on explants of fetal mouse cerebellum in culture (Bird, *et al.*) **180,** 371, *dem*
Cerebral cortex, Parvalbumin and calbindin immunoreactivity in the cerebral cortex of the hedgehog (*Erinaceus europaeus*) (Ferrer, *et al.*) **180,** 165
Chelonians, The orbital glands of the chelonians *Pseudemys scripta* and *Testudo graeca:* comparative histological, histochemical and ultrasound investigations (Chieffi Baccari, *et al.*) **180,** 1
Chick, The effect of differing concentrations of fibronectin on the settling and spreading of explants of chick precardiac mesoderm (Govewalla, *et al.*) **180,** 353, *P*
Chick embryo, Delamination of neuroepithelium and nonneural ectoderm and its relation to the convergence step in chick neurulation (Fernandez Caso, *et al.*) **180,** 143
The localisation of primitive streak stages chick primordial germ cells (England & Matsumura) **180,** 374, *dem*
The isolation of chick primordial germ cells at the primitive streak stages (Matsumura & England) **180,** 374, *dem*
Chicken, Fast and slow intrafusal fibre type systems in chicken leg muscle spindles (Maier) **180,** 233
Chick wing bud, The healing and consequences on skeletal pattern of wounds in the AER of the chick wing bud (McCullagh & Wilson) **180,** 354, *P*
Ciliated cells, Intracellular axonemes within ciliated cells in the tracheal epithelium of domestic pigs (Radner & Stockinger) **180,** 25
Circle of Willis, Functional relations between the vascularity of the brain and the circle of Willis in the developing and adult human (Hillen, *et al.*) **180,** 355, *P*
Clenbuterol, The effects of clenbuterol on satellite cell activation and the regeneration of skeletal muscle: an autoradiographic and morphometric study of whole muscle transplants in mice (Roberts & McGeachie) **180,** 57
Cochlea, Enhanced horseradish peroxidase uptake in the electrically stimulated cochlea of the guinea pig (Dodson, *et al.*) **180,** 535
Collagen, Characterisation of in vitro myogenesis from satellite cells: the influence of insulin, collagen and cell density (Ayuk, *et al.*) **180,** 378, *dem*
Colorectal epithelium, Histological morphometry of volumetric alterations in cells and nuclei during maturation of normal human colorectal epithelium (Tipoe, *et al.*) **180,** 382, *dem*
Coprodaeum, The membrane surface of microvilli in the epithelium of the avian coprodaeum expands by changes in cell number and in the number and length of microvilli (Mayhew, *et al.*) **180,** 368, *P*
Cornea, Morphometry of Cupromeronic Blue-stained proteoglycan molecules in animal corneas, versus that of purified proteoglycans stained in vitro, implies that tertiary structure contributes to corneal ultrastructure (Scott) **180,** 155
Costal cartilages, Costal cartilage calcification as an aid to the identification of sex from human skeletal remains (Powell) **180,** 357, *P*
CT osteoabsorptiometry, Distribution of subchondral bone density and cartilage thickness in the human patella (Eckstein, *et al.*) **180,** 425
Cumulus cell complexes, Human oocyte cumulus cell complexes examined by light and scanning electron microscopy (Slater, *et al.*) **180,** 374, *dem*
Cupromeronic Blue staining, Morphometry of Cupromeronic Blue-stained proteoglycan molecules in animal corneas, versus that of purified proteoglycans stained in vitro, implies that tertiary structure contributes to corneal ultrastructure (Scott) **180,** 155
Cytoarchitectonics, Cytoarchitectonic and quantitative Golgi study of the hedgehog supraoptic nucleus (Caminero, *et al.*) **180,** 31

Dermo-epidermal junction, Dermo-epidermal junction (Eady) **180,** 361, *P*
Desert rodents, The harderian gland of desert rodents: a histological and ultrastructural study (Djeridane) **180,** 465
Development, Quantitative study of the development and maturation of human oseophageal innervation (Hitchcock, *et al.*) **180,** 175
Histological morphometry of volumetric alterations in cells and nuclei during maturation of normal human colorectal epithelium (Tipoe, *et al.*) **180,** 382, *dem*
Dextrocardia, A case of complete situs inversus associated with dextrocardia (Skidmore & Mitchell) **180,** 373, *dem*
Diethylcarbamazine, The effects of diethylcarbamazine on explants of fetal mouse cerebellum in culture (Bird, *et al.*) **180,** 371, *dem*
Dopamine-beta-hydroxylase immunohistochemistry, Noradrenergic innervation of the human adrenal cortex as revealed by dopamine-beta-hydroxylase immunohistochemistry (Charlton, *et al.*) **180,** 501
Ductus deferens, The ampulla of the ductus deferens in man: morphological and ultrastructural aspects (Nistal, *et al.*) **180,** 97

Electron irradiation, The morphology of healing in rat skin after partial body electron irradiation (Wang, *et al.*) **180,** 379, *dem*

Embryos, Gonadal sex differentiation in embryos of the quail (Perrin) **180,** 353, *P*

Gonadal development in embryos of the opossum, *Monodelphis domestica* (Baker, *et al.*) **180,** 353, *P*

Morphological features of homozygous tetraploid mouse embryos (Kaufman) **180,** 375, *dem*

The action of oestrogen on the development of the gonads in male quail embryos (Perrin, *et al.*) **180,** 375, *dem*

Postcranial morphological features of homozygous tetraploid mouse embryos (Kaufman) **180,** 521

Enamel, A comparison of tooth structure in Neanderthals and early *Homo sapiens sapiens:* a radiographic study (Zilberman & Smith) **180,** 387

Endocytosis, Distribution of ^{125}iodine-labelled mouse immunoglobulin G injected intravenously in pregnant mice (Peel & Stewart) **180,** 481

Endothelial cells, Light therapy affects endothelial cell proliferation (Ghali & Dyson) **180,** 380, *dem*

Endothelial cell migration, The effects of low level laser irradiation on endothelial cell migration in vitro (Ledger) **180,** 354, *P*

Enkephalin immunoreactivity, Distribution of enkephalin-like immunoreactivity in the central nervous system of the rainbow trout: an immunocytochemical study (Vecino, *et al.*) **180,** 435

Epididymis, A quantitative description of the epididymis and its microvasculature: an age-related study in the rat (Markey & Meyer) **180,** 255

Epithelium, Intracellular axonemes within ciliated cells in the tracheal epithelium of domestic pigs (Radner & Stockinger) **180,** 25

Distribution of antigen-presenting cells in tonsillar epithelium (Perry & Mustafa) **180,** 365, *P*

The membrane surface of microvilli in the epithelium of the avian coprodaeum expands by changes in cell number and in the number and length of microvilli (Mayhew, *et al.*) **180,** 368, *P*

Radiation effects on the keratinised stratified squamous epithelium of the mouse stomach and associated microflora (Nunn, *et al.*) **180,** 379, *dem*

Cellular and nuclear volumetric differences between basal cells in normal palatal and buccal epithelia (White, *et al.*) **180,** 382, *dem*

Chronic inflammation and the epithelium of the human cheek mucosa: a histological and morphometric study (White, *et al.*) **180,** 382, *dem*

Cytochemical localisation and characterisation of proteoglycans (glycosaminoglycans) in the epithelial-stromal interface of the seminal vesicle of the guinea pig (Chan & Wong) **180,** 41

Erinaceus europaeus, Parvalbumin and calbindin immunoreactivity in the cerebral cortex of the hedgehog (*Erinaceus europaeus*) (Ferrer, *et al.*) **180,** 165

Erythrocyte membranes, An ultrastructural study of the cytoplasmic aspects of erythrocyte membranes by a quick-freezing and deep-etching method (Ohno) **180,** 315

Exercise, The effects of pre- and post-transplantation exercise on satellite cell activation and the regeneration of skeletal muscle transplants: a morphometric and autoradiographic study in mice (Roberts & McGeachie) **180,** 67

Exocytosis, Exocytosis from gonadotrophs stimulated with GnRH (Durnin & Morris) **180,** 367, *P*

Stimulant-induced exocytosis in the chronically denervated superior cervical sympathetic ganglion (SCG) of the rat (Zaini & Matthews) **180,** 378, *dem*

Experimental allergic neuritis, Experimental allergic neuritis in the Lewis rat: a preliminary freeze-fracture study (Howe & Ghabriel) **180,** 364, *P*

Eyelid fusion, Eyelid fusion and reopening in the mouse (Kaufman, *et al.*) **180,** 375, *dem*

Femoral artery, Oxygenation of the pig femoral artery in vivo (Barker, *et al.*) **180,** 382, *dem*

Fetus, The effects of castanospermine on fetal mouse cerebellar neurons in culture (Bird, *et al.*) **180,** 370, *dem*

Interactions in co-culture between previously dissociated fetal rat striatal neurons and explants of adrenal gland (Bird) **180,** 370, *dem*

The effects of diethylcarbamazine on explants of fetal mouse cerebellum in culture (Bird, *et al.*) **180,** 371, *dem*

The morphology of fetal rat adrenal gland cells maintained in roller tube cultures (Earl & Bird) **180,** 372, *dem*

Fibroblasts, The effect of pooled human amniotic fluid on the proliferation of adult and fetal fibroblasts in vitro (Hart & Dyson) **180,** 379, *dem*

Fibrocartilage, The development of fibrocartilage on the calcaneus and in the Achilles tendon of the rat (Rufai, *et al.*) **180,** 369, *dem*

Fibronectin, The effect of differing concentrations of fibronectin on the settling and spreading of explants of chick precardiac mesoderm (Govewalla, *et al.*) **180,** 353, *P*

Fish, The structure and development of the 'plana semilunata' of the labyrinth of the trout (Becerra & Anadón) **180,** 247

Cartilage and related tissues in the fins and trunk of teleosts (Benjamin, *et al.*) **180,** 370, *dem*

Distribution of enkephalin-like immunoreactivity in the central nervous system of the rainbow trout: an immunocytochemical study (Vecino, *et al.*) **180,** 435

Flexor carpi ulnaris, A variant of flexor carpi ulnaris causing ulnar nerve compression (Al-Quattan & Duerksen) **180,** 189

Foramen meningo-orbitale, The foramen meningo-orbitale and its relationship to the development of the ophthalmic artery (Geourgiou & Cassell) **180,** 119

Freeze-etching, An ultrastructural study of the cytoplasmic aspects of erythrocyte membranes by a quick-freezing and deep-etching method (Ohno) **180,** 315

Freeze-fracture electron microscopy, Experimental allergic neuritis in the Lewis rat: a preliminary freeze-fracture study (Howe & Ghabriel) **180,** 364, *P*

Frog, Magnetic resonance imaging of semicircular canals (Sbarbati, *et al.*) **180,** 343

G cells, The distribution of parietal and G-cells in the developing human stomach (Kelly) **180,** 368, *P*

GABA immunoreactivity, Prenatal development of GABA immunoreactivity in human visual cortex (Garey & Yan) **180,** 359, *P*

GABA metabolism, Enzymes of GABA metabolism in motoneurons (Snow) **180,** 359, *P*

Gallbladder, Scanning electron microscopy of the rabbit gallbladder mucosal microvasculature (Caggiati, *et al.*) **180,** 275

GAP-43, Elevated GAP-43 levels in neurons close to stab wounds in adult rat brain (Vaudano, *et al.*) **180,** 359, *P*

Gerbillidae, The harderian gland of desert rodents: a histological and ultrastructural study (Djeridane) **180,** 465

Glia, Characterisation of ramified glial cells: detailed morphology, morphological plasticity and proliferative capability (Glenn, *et al.*) **180,** 109

Glycosoaminoglycans, Human intervertebral disc acid glycosaminoglycans (Taylor, *et al.*) **180,** 137

Cytochemical localisation and characterisation of proteoglycans (glycosaminoglycans) in the epithelial-stromal interface of the seminal vesicle of the guinea pig (Chan & Wong) **180,** 41

Gonadal development, Gonadal development in embryos of the opossum, *Monodelphis domestica* (Baker, *et al.*) **180,** 353, *P*

Gonadotrophic releasing hormone, Exocytosis from gonadotrophs stimulated with GnRH (Durnin & Morris) **180,** 367, *P*

Gonadotrophs, Exocytosis from gonadotrophs stimulated with GnRH (Durnin & Morris) **180,** 367, *P*

Gonads, Gonadal sex differentiation in embryos of the quail (Perrin) **180,** 353, *P*

The action of oestrogen on the development of the gonads in male quail embryos (Perrin, *et al.*) **180,** 375, *dem*

Granulated metrial cells, Distribution of ^{125}iodine-labelled mouse

immunoglobulin G injected intravenously in pregnant mice (Peel & Stewart) **180,** 481

Guinea pig, The ultrastructure, and neuropeptide and transmitter associated enzyme content of the peri-ureteric ganglia of the guinea pig (Mitchell, *et al.*) **180,** 363, *P*

Cytochemical localisation and characterisation of proteoglycans (glycosaminoglycans) in the epithelial-stromal interface of the seminal vesicle of the guinea pig (Chan & Wong) **180,** 41

Enhanced horseradish peroxidase uptake in the electrically stimulated cochlea of the guinea pig (Dodson, *et al.*) **180,** 535

Hair, Peroxisome morphogenesis in human hair-associated sebaceous glands (Gorgas) **180,** 366, *P*

Hamster, The hamster harderian gland: a combined scanning and transmission electron microscopic investigation (McGadey, *et al.*) **180,** 127

Handedness, Variations in the intertubercular sulcus of the humerus related to handedness (Vettivel, *et al.*) **180,** 321

Harderian gland, The orbital glands of the chelonians *Pseudemys scripta* and *Testudo graeca:* comparative histological, histochemical and ultrastructural investigations (Chieffi Baccari, *et al.*) **180,** 1

The hamster harderian gland: a combined scanning and transmission electron microscopic investigation (McGadey, *et al.*) **180,** 127

The harderian gland of desert rodents: a histological and ultrastructural study (Djeridane) **180,** 465

Healing, The healing and consequences on skeletal pattern of wounds in the AER of the chick wing bud (McCullagh & Wilson) **180,** 354, *P*

Heart, Immunocytochemical localisation of substance P-like nerves in the cardiac ganglia of the monkey (*Macaca fascicularis*) (Tay & Wong) **180,** 239

The effect of differing concentrations of fibronectin on the settling and spreading of explants of chick precardiac mesoderm (Govewalla, *et al.*) **180,** 353, *P*

Hedgehog, Parvalbumin and calbindin immunoreactivity in the cerebral cortex of the hedgehog (*Erinaceus europaeus*) (Ferrer, *et al.*) **180,** 165

Cytoarchitectonic and quantitative Golgi study of the hedgehog supraoptic nucleus (Caminero, *et al.*) **180,** 31

Hippocampus, Microvessel and astroglial cell densities in the mouse hippocampus (Shimada, *et al.*) **180,** 89

H^+K^+ATPase, H^+K^+ATPase and carbonic anhydrase in gastric parietal cells (MacNaught & Firth) **180,** 368, *P*

Hominid evolution, Hominid evolution: a new phylogenetic scheme (Wood) **180,** 357, *P*

Honeyeater birds, A stereological analysis of kidney structure of honeyeater birds (Meliphagidae) inhabiting either arid or wet environments (Casotti & Richardson) **180,** 281

'Human Anatomy', 'Human Anatomy': the creation of a textbook and colour atlas (Willan, *et al.*) **180,** 381, *dem*

Humerus, Variations in the intertubercular sulcus of the humerus related to handedness (Vettivel, *et al.*) **180,** 321

Hydrocolloid wound dressings, Tissue reactions induced by hydrocolloid wound dressings (Leek & Barlow) **180,** 545

Image analysis, Quantifying amyloid plaque types in Alzheimer's disease using computerised image analysis (Edwards) **180,** 358, *P*

Immunoglobulin G, Distribution of ^{125}iodine-labelled mouse immunoglobulin G injected intravenously in pregnant mice (Peel & Stewart) **180,** 481

Immunosuppression, Fractionation of rat seminal plasma and identification of the fraction with immunosuppressive activity in vivo (Shakespeare) **180,** 365, *P*

Inflammation, Chronic inflammation and the epithelium of the human cheek mucosa: a histological and morphometric study (White, *et al.*) **180,** 382, *dem*

Inheritance, The inheritance of vertebral shape in the mouse. I. A study using Fourier analysis to examine patterns of inheritance in the morphology of cervical and upper thoracic vertebrae (Johnson, *et al.*) **180,** 507

Innervation, Quantitative study of the development and maturation of human oseophageal innervation (Hitchcock, *et al.*) **180,** 175

Insulin, Characterisation of in vitro myogenesis from satellite cells: the influence of insulin, collagen and cell density (Ayuk, *et al.*) **180,** 378, *dem*

Intercostal nerves, Differences in the ultrastructure of Nissl bodies in cat thoracic motoneurons after exposing intercostal nerves to different experiments (Johnson & Sears) **180,** 377, *dem*

Intertubercular sulcus, Variations in the intertubercular sulcus of the humerus related to handedness (Vettivel, *et al.*) **180,** 321

Intervertebral disc, Human intervertebral disc acid glycosaminoglycans (Taylor, *et al.*) **180,** 137

RT97- and calcitonin gene-related peptide-like immunoreactivity in lumbar intervertebral discs and adjacent tissue from the rat (McCarthy, *et al.*) **180,** 15

Jugular foramen, Structural variations in the jugular foramen of the human skull (Hatiboğlu & Anıl) **180,** 191

Kainic acid, Activation and re-expression of surface antigen in microglia following an epidural application of kainic acid in the rat brain (Kaur & Ling) **180,** 333

Kidney, A stereological analysis of kidney structure of honeyeater birds (Meliphagidae) inhabiting either arid or wet environments (Casotti & Richardson) **180,** 281

Knee joint, Principles and mechanisms of automatic rotation during terminal extension in the human knee joint (Fuss) **180,** 297

The extensor mechanism of the knee joint (Javadpour) **180,** 356, *P*

Labyrinth, The structure and development of the 'plana semilunata' of the labyrinth of the trout (Becerra & Anadón) **180,** 247

Magnetic resonance imaging of semicircular canals (Sbarbati, *et al.*) **180,** 343

Lacrimal gland, The orbital glands of the chelonians *Pseudemys scripta* and *Testudo graeca:* comparative histological, histochemical and ultrasound investigations (Chieffi Baccari, *et al.*) **180,** 1

Anatomical aspects of the lacrimal gland of the tufted capuchin (*Cebus apella*) (Veiga Neto, *et al.*) **180,** 75

Laser irradiation, The effects of low level laser irradiation on endothelial cell migration in vitro (Ledger) **180,** 354, *P*

Lectins, Binding of lectins to rat small intestine (Schumacher, *et al.*) **180,** 380, *dem*

Lectin histochemistry of rat uteroplacental tissues (Bulmer, *et al.*) **180,** 381, *dem*

Leprosy, Is a sensory nerve growth factor defect involved in the polyneuropathy of leprosy? (Crawford & Hobbs) **180,** 364, *P*

Leucine-enkephalin, Distribution of enkephalin-like immunoreactivity in the central nervous system of the rainbow trout: an immunocytochemical study (Vecino, *et al.*) **180,** 435

Lewis rat, Experimental allergic neuritis in the Lewis rat: a preliminary freeze-fracture study (Howe & Ghabriel) **180,** 364, *P*

Light therapy, Light therapy affects endothelial cell proliferation (Ghali & Dyson) **180,** 380, *dem*

Liver, Effects of low temperature on the ultrastructure and metabolic activity of rat liver maintained in vitro by perfusion (Al-Ali & Hassan) **180,** 373, *dem*

Low temperature, Effects of low temperature on the ultrastructure and metabolic activity of rat liver maintained in vitro by perfusion (Al-Ali & Hassan) **180,** 373, *dem*

Macaca fascicularis, Immunocytochemical localisation of substance P-like nerves in the cardiac ganglia of the monkey (*Macaca fascicularis*) (Tay & Wong) **180,** 239

Magnetic resonance imaging, Magnetic resonance imaging of semicircular canals (Sbarbati, *et al.*) **180,** 343

Mandible, Comparative morphology of the mandibulodental

complex in wild and domestic canids (Kieser & Groeneveld) **180,** 419
Manubrio-sternal joint, A radiological investigation of the manubrio-sternal joint (Smith) **180,** 356, *P*
Marbled newt, Characterisation of secondary spermatocytes in the marbled newt (*Triturus marmoratus*) (Fraile, *et al.*) **180,** 81
Marsupials, Gonadal development in embryos of the opossum, *Monodelphis domestica* (Baker, *et al.*) **180,** 353, *P*
The morphology and innervation of facial vibrissae in the tammar wallaby, *Macropus eugenii* (Marotte, *et al.*) **180,** 401
Masseter muscle, Myosin heavy chain expression in rabbit masseter muscle during postnatal development (Bredman, *et al.*) **180,** 263
Mdx mouse, Genetically modified myoblasts introduced into muscle fibres of the mdx mouse migrate into adjacent muscles (Watt, *et al.*) **180,** 366, *P*
Median artery of forearm, High incidence of the median artery of the forearm in a sample of recent Southern African cadavers (Henneberg & George) **180,** 185
Melanocytes, 'Out damned spot' – a melanocyte saga (Breathnach) **180,** 361, *P*
Meliphagidae, A stereological analysis of kidney structure of honeyeater birds (Meliphagidae) inhabiting either arid or wet environments (Casotti & Richardson) **180,** 281
Mesenchyme, A quantitative ultrastructural investigation of the mesenchymal cells in the developing hard and soft palates (Singh & Moxham) **180,** 377, *dem*
Mesoderm, The effect of differing concentrations of fibronectin on the settling and spreading of explants of chick precardiac mesoderm (Govewalla, *et al.*) **180,** 353, *P*
Methionine-enkephalin, Distribution of enkephalin-like immunoreactivity in the central nervous system of the rainbow trout: an immunocytochemical study (Vecino, *et al.*) **180,** 435
Microglia, Activation and re-expression of surface antigen in microglia following an epidural application of kainic acid in the rat brain (Kaur & Ling) **180,** 333
Microscopy, An ultrastructural study of the cytoplasmic aspects of erythrocyte membranes by a quick-freezing and deep-etching method (Ohno) **180,** 315
Microvasculature, Scanning electron microscopy of the rabbit gallbladder mucosal microvasculature (Caggiati, *et al.*) **180,** 275
Microvessels, Changes in cerebral microvessel ultrastructure in Alzheimer's disease (Horwood & Davies) **180,** 355, *P*
The vasa vasorum of the rabbit carotid artery (Barker) **180,** 356, *P*
Microvessel and astroglial cell densities in the mouse hippocampus (Shimada, *et al.*) **180,** 89
Microvilli, The membrane surface of microvilli in the epithelium of the avian coprodaeum expands by changes in cell number and in the number and length of microvilli (Mayhew, *et al.*) **180,** 368, *P*
Monkey, Immunocytochemical localisation of substance P-like nerves in the cardiac ganglia of the monkey (*Macaca fascicularis*) (Tay & Wong) **180,** 239
Monkeys, Anatomical aspects of the lacrimal gland of the tufted capuchin (*Cebus apella*) (Veiga Neto, *et al.*) **180,** 75
Monodelphis domestica, Gonadal development in embryos of the opossum, *Monodelphis domestica* (Baker, *et al.*) **180,** 353, *P*
Motoneuron death, The use of prelabelling with retrograde tracers to study motoneuron death in rats (Lavalette & Lowrie) **180,** 377, *dem*
Motoneurons, Enzymes of GABA metabolism in motoneurons (Snow) **180,** 359, *P*
Localised morphological changes in sciatic pool motoneurons following neonatal nerve-crush in the rat (O'Hanlon & Lowrie) **180,** 360, *P*
Differences in the ultrastructure of Nissl bodies in cat thoracic motoneurons after exposing intercostal nerves to different experiments (Johnson & Sears) **180,** 377, *dem*
Mouse, Oocyte numbers are reduced in developing mouse ovaries cultured in testis-conditioned medium (Tavendale, *et al.*) **180,** 289
The effect of ageing on the lateral part of the nucleus of the solitary tract and the parabrachial nuclear complex of the mouse (Sturrock) **180,** 360, *P*
The effects of NGF on the survival in vitro of adult and aged mouse sensory neurons (Jiang & Smith) **180,** 364, *P*
The effects of castanospermine on fetal mouse cerebellar neurons in culture (Bird, *et al.*) **180,** 370, *dem*
The effects of diethylcarbamazine on explants of fetal mouse cerebellum in culture (Bird, *et al.*) **180,** 371, *dem*
Morphological features of homozygous tetraploid mouse embryos (Kaufman) **180,** 375, *dem*
Eyelid fusion and reopening in the mouse (Kaufman, *et al.*) **180,** 375, *dem*
Radiation effects on the keratinised stratified squamous epithelium of the mouse stomach and associated microflora (Nunn, *et al.*) **180,** 379, *dem*
Distribution of ^{125}iodine-labelled mouse immunoglobulin G injected intravenously in pregnant mice (Peel & Stewart) **180,** 481
The inheritance of vertebral shape in the mouse. I. A study using Fourier analysis to examine patterns of inheritance in the morphology of cervical and upper thoracic vertebrae (Johnson, *et al.*) **180,** 507
Postcranial morphological features of homozygous tetraploid mouse embryos (Kaufman) **180,** 521
The effects of clenbuterol on satellite cell activation and the regeneration of skeletal muscle: an autoradiographic and morphometric study of whole muscle transplants in mice (Roberts & McGeachie) **180,** 57
The effects of pre- and post-transplantation exercise on satellite cell activation and the regeneration of skeletal muscle transplants: a morphometric and autoradiographic study in mice (Roberts & McGeachie) **180,** 67
Microvessel and astroglial cell densities in the mouse hippocampus (Shimada, *et al.*) **180,** 89
Mouth, Cellular and nuclear volumetric differences between basal cells in normal palatal and buccal epithelia (White, *et al.*) **180,** 382, *dem*
Chronic inflammation and the epithelium of the human cheek mucosa: a histological and morphometric study (White, *et al.*) **180,** 382, *dem*
Muscle, The structure of the insertions of the tendons of biceps brachii, triceps and brachialis in elderly dissecting room cadavers (Benjamin, *et al.*) **180,** 327
Genetically modified myoblasts introduced into muscle fibres of the mdx mouse migrate into adjacent muscles (Watt, *et al.*) **180,** 366, *P*
Relationships between structure and function of the insertions of the tendons of brachialis, biceps and triceps in man (Benjamin, *et al.*) **180,** 369, *dem*
Characterisation of in vitro myogenesis from satellite cells: the influence of insulin, collagen and cell density (Ayuk, *et al.*) **180,** 378, *dem*
Fibre size and adaptations to spinal isolation and cyclical passive stretch in cat hindlimb (Roy, *et al.*) **180,** 491
Muscle hypertrophy, The relationship between capillarisation and fibre types during compensatory hypertrophy of the plantaris muscle in rat (Degens, *et al.*) **180,** 455
Muscle spindles, Fast and slow intrafusal fibre type systems in chicken leg muscle spindles (Maier) **180,** 233
Muscle transplantation, The effects of clenbuterol on satellite cell activation and the regeneration of skeletal muscle: an autoradiographic and morphometric study of whole muscle transplants in mice (Roberts & McGeachie) **180,** 57
The effects of pre- and post-transplantation exercise on satellite cell activation and the regeneration of skeletal muscle transplants: a morphometric and autoradiographic study in mice (Roberts & McGeachie) **180,** 67
Myoblasts, Genetically modified myoblasts introduced into muscle fibres of the mdx mouse migrate into adjacent muscles (Watt, *et al.*) **180,** 366, *P*
Myogenesis, Characterisation of in vitro myogenesis from satellite cells: the influence of insulin, collagen and cell density (Ayuk, *et al.*) **180,** 378, *dem*

Myosin, Myosin heavy chain expression in rabbit masseter muscle during postnatal development (Bredman, *et al.*) **180,** 263

Neanderthal man, A comparison of tooth structure in Neanderthals and early *Homo sapiens sapiens:* a radiographic study (Zilberman & Smith) **180,** 387
Neocortical development, Synaptic input to subplate neurons in the cat: infragranular neurons provide synaptic input to underlying subplate cells during the early postnatal neocortical development. A light and electron microscopical study (Lowenstein & Shering) **180,** 383, *dem*
Nerve compression, A variant of flexor carpi ulnaris causing ulnar nerve compression (Al-Quattan & Duerksen) **180,** 189
Nerve grafting, The effects of a sciatic nerve lesion on lumbar dorsal root regeneration into long peripheral nerve grafts in rats (Anderson, *et al.*) **180,** 360, *P*
Nerve growth factor, The effects of NGF on the survival in vitro of adult and aged mouse sensory neurons (Jiang & Smith) **180,** 364, *P*
Nerve injury, The effects of a sciatic nerve lesion on lumbar dorsal root regeneration into long peripheral nerve grafts in rats (Anderson, *et al.*) **180,** 360, *P*
Localised morphological changes in sciatic pool motoneurons following neonatal nerve-crush in the rat (O'Hanlon & Lowrie) **180,** 360, *P*
Nerve fibre networks immunoreactive for substance P (SP) and for calcitonin gene related peptide (CGRP) increase dramatically in the rat superior cervical sympathetic ganglion following preganglionic denervation (Zaidi & Matthews) **180,** 363, *P*
Intracranial transection of the optic nerve in adult rats: an ultrastructural study of early responses in the proximal stump (Zeng, *et al.*) **180,** 378, *dem*
Neurotropic influence of the distal stump of transected peripheral nerve on axonal regeneration: absence of topographic specificity in adult nerve (Abernethy, *et al.*) **180,** 395
Nerve regeneration, The effects of a sciatic nerve lesion on lumbar dorsal root regeneration into long peripheral nerve grafts in rats (Anderson, *et al.*) **180,** 360, *P*
Neurotropic influence of the distal stump of transected peripheral nerve on axonal regeneration: absence of topographic specificity in adult nerve (Abernethy, *et al.*) **180,** 395
Nerve to tensor fascia lata, The cutaneous branches of the superior gluteal nerve with special reference to the nerve to tensor fascia lata (Akita, *et al.*) **180,** 105
Neurites, The effects of acetylcholine on the outgrowth of mammalian spinal cord neurites in vitro (Owen & Bird) **180,** 371, *dem*
Neuroepithelium, Delamination of neuroepithelium and nonneural ectoderm and its relation to the convergence step in chick neurulation (Fernandez Caso, *et al.*) **180,** 143
Neurons, Enzymes of GABA metabolism in motoneurons (Snow) **180,** 359, *P*
Elevated GAP-43 levels in neurons close to stab wounds in adult rat brain (Vaudano, *et al.*) **180,** 359, *P*
Localised morphological changes in sciatic pool motoneurons following neonatal nerve-crush in the rat (O'Hanlon & Lowrie) **180,** 360, *P*
The effects of castanospermine on fetal mouse cerebellar neurons in culture (Bird, *et al.*) **180,** 370, *dem*
Interactions in co-culture between previously dissociated fetal rat striatal neurons and explants of adrenal gland (Bird) **180,** 370, *dem*
Neuropeptides, The neuropeptides of the pelvic viscera innervated by the anterior major pelvic ganglion (Dhami) **180,** 362, *P*
The ultrastructure, and neuropeptide and transmitter associated enzyme content of the peri-ureteric ganglia of the guinea pig (Mitchell, *et al.*) **180,** 363, *P*
Neurotropism, Neurotropic influence of the distal stump of transected peripheral nerve on axonal regeneration: absence of topographic specificity in adult nerve (Abernethy, *et al.*) **180,** 395
Neurulation, Delamination of neuroepithelium and nonneural ectoderm and its relation to the convergence step in chick neurulation (Fernandez Caso, *et al.*) **180,** 143
Nissl bodies, Differences in the ultrastructure of Nissl bodies in cat thoracic motoneurons after exposing intercostal nerves to different experiments (Johnson & Sears) **180,** 377, *dem*
Noradrenergic innervation, Noradrenergic innervation of the human adrenal cortex as revealed by dopamine-beta-hydroxylase immunohistochemistry (Charlton, *et al.*) **180,** 501

Occipital bone, Ossification of the membranous portion of the squamous part of the occipital bone in man (Srivastava) **180,** 219
Oesophagus, Quantitative study of the development and maturation of human oesophageal innervation (Hitchcock, *et al.*) **180,** 175
Oestrogens, The action of oestrogen on the development of the gonads in male quail embryos (Perrin, *et al.*) **180,** 375, *dem*
Oocyte numbers, Oocyte numbers are reduced in developing mouse ovaries cultured in testis-conditioned medium (Tavendale, *et al.*) **180,** 289
Oocytes, Human oocyte cumulus cell complexes examined by light and scanning electron microscopy (Slater, *et al.*) **180,** 374, *dem*
Ophthalmic artery, The foramen meningo-orbitale and its relationship to the development of the ophthalmic artery (Geourgiou & Cassell) **180,** 119
Opossum, Gonadal development in embryos of the opossum, *Monodelphis domestica* (Baker, *et al.*) **180,** 353, *P*
Optic nerve, Intracranial transection of the optic nerve in adult rats: an ultrastructural study of early responses in the proximal stump (Zeng, *et al.*) **180,** 378, *dem*
Orbital glands, The orbital glands of the chelonians *Pseudemys scripta* and *Testudo graeca:* comparative histological, histochemical and ultrasound investigations (Chieffi Baccari, *et al.*) **180,** 1
Ossicles, A rare anomaly of 5 ossicles in the pre-interparietal part of the squamous bones in north Indians (Gopinathan) **180,** 201
Ossification, Ossification of the membranous portion of the squamous part of the occipital bone in man (Srivastava) **180,** 219
Osteoblasts, In vivo osteogenesis by osteoblasts cultured in vitro upon demineralised rat bone (Mulholland) **180,** 357, *P*
Osteogenesis, In vivo osteogenesis by osteoblasts cultured in vitro upon demineralised rat bone (Mulholland) **180,** 357, *P*
Ovary, Oocyte numbers are reduced in developing mouse ovaries cultured in testis-conditioned medium (Tavendale, *et al.*) **180,** 289
Oxygenation, Oxygenation of the pig femoral artery in vivo (Barker, *et al.*) **180,** 382, *dem*

Palate, A quantitative ultrastructural investigation of the mesenchymal cells in the developing hard and soft palates (Singh & Moxham) **180,** 377, *dem*
Cellular and nuclear volumetric differences between basal cells in normal palatal and buccal epithelia (White, *et al.*) **180,** 382, *dem*
Parabrachial nuclear complex, The effect of ageing on the lateral part of the nucleus of the solitary tract and the parabrachial nuclear complex of the mouse (Sturrock) **180,** 360, *P*
Parietal cells, H^+K^+ATPase and carbonic anhydrase in gastric parietal cells (MacNaught & Firth) **180,** 368, *P*
The distribution of parietal and G-cells in the developing human stomach (Kelly) **180,** 368, *P*
Parvalbumin immunoreactivity, Parvalbumin and calbindin immunoreactivity in the cerebral cortex of the hedgehog (*Erinaceus europaeus*) (Ferrer, *et al.*) **180,** 165
Passive stretching, Fibre size and adaptations to spinal isolation and cyclical passive stretch in cat hindlimb (Roy, *et al.*) **180,** 491
Patella, Distribution of subchondral bone density and cartilage thickness in the human patella (Eckstein, *et al.*) **180,** 425

Pelvic ganglia, The neuropeptides of the pelvic viscera innervated by the anterior major pelvic ganglion (Dhami) **180,** 362, *P*
Peptides, Distribution of enkephalin-like immunoreactivity in the central nervous system of the rainbow trout: an immunocytochemical study (Vecino, *et al.*) **180,** 435
Periureteric ganglia, The ultrastructure, and neuropeptide and transmitter associated enzyme content of the peri-ureteric ganglia of the guinea pig (Mitchell, *et al.*) **180,** 363, *P*
Permeability, Permeability of the skin (Elias) **180,** 361, *P*
Peroxisomes, Peroxisome morphogenesis in human hair-associated sebaceous glands (Gorgas) **180,** 366, *P*
Phylogeny, Hominid evolution: a new phylogenetic scheme (Wood) **180,** 357, *P*
Pig, Intracellular axonemes within ciliated cells in the tracheal epithelium of domestic pigs (Radner & Stockinger) **180,** 25
Oxygenation of the pig femoral artery in vivo (Barker, *et al.*) **180,** 382, *dem*
Placenta, Lectin histochemistry of rat uteroplacental tissues (Bulmer, *et al.*) **180,** 381, *dem*
Plana semilunata, The structure and development of the 'plana semilunata' of the labyrinth of the trout (Becerra & Anadón) **180,** 247
Polyneuropathy, Is a sensory nerve growth factor defect involved in the polyneuropathy of leprosy? (Crawford & Hobbs) **180,** 364, *P*
Pregnancy, Distribution of ^{125}iodine-labelled mouse immunoglobulin G injected intravenously in pregnant mice (Peel & Stewart) **180,** 481
Primordial germ cells, The localisation of primitive streak stages chick primordial germ cells (England & Matsumura) **180,** 374, *dem*
The isolation of chick primordial germ cells at the primitive streak stages (Matsumura & England) **180,** 374, *dem*
Proteoglycans, Morphometry of Cupromeronic Blue-stained proteoglycan molecules in animal corneas, versus that of purified proteoglycans stained in vitro, implies that tertiary structure contributes to corneal ultrastructure (Scott) **180,** 155
Cytochemical localisation and characterisation of proteoglycans (glycosaminoglycans) in the epithelial-stromal interface of the seminal vesicle of the guinea pig (Chan & Wong) **180,** 41
Pseudemys scripta, The orbital glands of the chelonians *Pseudemys scripta* and *Testudo graeca*: comparative histological, histochemical and ultrasound investigations (Chieffi Baccari, *et al.*) **180,** 1

Quail, Gonadal sex differentiation in embryos of the quail (Perrin) **180,** 353, *P*
Quails, The action of oestrogen on the development of the gonads in male quail embryos (Perrin, *et al.*) **180,** 375, *dem*

Rabbit, The vasa vasorum of the rabbit carotid artery (Barker, *et al.*) **180,** 225
Myosin heavy chain expression in rabbit masseter muscle during postnatal development (Bredman, *et al.*) **180,** 263
Scanning electron microscopy of the rabbit gallbladder mucosal microvasculature (Caggiati, *et al.*) **180,** 275
The vasa vasorum of the rabbit carotid artery (Barker) **180,** 356, *P*
Radiation, Radiation effects on the keratinised stratified squamous epithelium of the mouse stomach and associated microflora (Nunn, *et al.*) **180,** 379, *dem*
Ramified glial cells, Characterisation of ramified glial cells: detailed morphology, morphological plasticity and proliferative capability (Glenn, *et al.*) **180,** 109
Rat, RT97- and calcitonin gene-related peptide-like immunoreactivity in lumbar intervertebral discs and adjacent tissue from the rat (McCarthy, *et al.*) **180,** 15
A quantitative description of the epididymis and its microvasculature: an age-related study in the rat (Markey & Meyer) **180,** 255
The intraglandular submandibular ganglion of postnatal and adult rats. I. A light and electron microscope study (Ng, *et al.*) **180,** 305
Activation and re-expression of surface antigen in microglia following an epidural application of kainic acid in the rat brain (Kaur & Ling) **180,** 333
In vivo osteogenesis by osteoblasts cultured in vitro upon demineralised rat bone (Mulholland) **180,** 357, *P*
The effects of a sciatic nerve lesion on lumbar dorsal root regeneration into long peripheral nerve grafts in rats (Anderson, *et al.*) **180,** 360, *P*
Localised morphological changes in sciatic pool motoneurons following neonatal nerve-crush in the rat (O'Hanlon & Lowrie) **180,** 360, *P*
Nerve fibre networks immunoreactive for substance P (SP) and for calcitonin gene related peptide (CGRP) increase dramatically in the rat superior cervical sympathetic ganglion following preganglionic denervation (Zaidi & Matthews) **180,** 363, *P*
Fractionation of rat seminal plasma and identification of the fraction with immunosuppressive activity in vivo (Shakespeare) **180,** 365, *P*
The development of fibrocartilage on the calcaneus and in the Achilles tendon of the rat (Rufai, *et al.*) **180,** 369, *dem*
Interactions in co-culture between previously dissociated fetal rat striatal neurons and explants of adrenal gland (Bird) **180,** 370, *dem*
The morphology of fetal rat adrenal gland cells maintained in roller tube cultures (Earl & Bird) **180,** 372, *dem*
Effects of low temperature on the ultrastructure and metabolic activity of rat liver maintained in vitro by perfusion (Al-Ali & Hassan) **180,** 373, *dem*
The use of prelabelling with retrograde tracers to study motoneuron death in rats (Lavalette & Lowrie) **180,** 377, *dem*
Intracranial transection of the optic nerve in adult rats: an ultrastructural study of early responses in the proximal stump (Zeng, *et al.*) **180,** 378, *dem*
Stimulant-induced exocytosis in the chronically denervated superior cervical sympathetic ganglion (SCG) of the rat (Zaini & Matthews) **180,** 378, *dem*
The morphology of healing in rat skin after partial body electron irradiation (Wang, *et al.*) **180,** 379, *dem*
The effect of pooled human amniotic fluid on the proliferation of adult and fetal fibroblasts in vitro (Hart & Dyson) **180,** 379, *dem*
The effect of therapeutic ultrasound on wound contraction in the rat (Hart & Dyson) **180,** 380, *dem*
Binding of lectins to rat small intestine (Schumacher, *et al.*) **180,** 380, *dem*
Lectin histochemistry of rat uteroplacental tissues (Bulmer, *et al.*) **180,** 381, *dem*
Neurotropic influence of the distal stump of transected peripheral nerve on axonal regeneration: absence of topographic specificity in adult nerve (Abernethy, *et al.*) **180,** 395
The relationship between capillarisation and fibre types during compensatory hypertrophy of the plantaris muscle in rat (Degens, *et al.*) **180,** 455
Ribs, Malformations for the ribs and sternum in two medieval human skeletons (Wakely & Diack) **180,** 373, *dem*

Satellite cells, Characterisation of in vitro myogenesis from satellite cells: the influence of insulin, collagen and cell density (Ayuk, *et al.*) **180,** 378, *dem*
The effects of clenbuterol on satellite cell activation and the regeneration of skeletal muscle: an autoradiographic and morphometric study of whole muscle transplants in mice (Roberts & McGeachie) **180,** 57
The effects of pre- and post-transplantation exercise on satellite cell activation and the regeneration of skeletal muscle transplants: a morphometric and autoradiographic study in mice (Roberts & McGeachie) **180,** 67
Sciatic nerve, The effects of a sciatic nerve lesion on lumbar dorsal root regeneration into long peripheral nerve grafts in rats (Anderson, *et al.*) **180,** 360, *P*
Sebaceous glands, Peroxisome morphogenesis in human hair-associated sebaceous glands (Gorgas) **180,** 366, *P*
Secondary spermatocytes, Characterisation of secondary

spermatocytes in the marbled newt (*Triturus marmoratus*) (Fraile, *et al.*) **180,** 81
Semicircular canals, Magnetic resonance imaging of semicircular canals (Sbarbati, *et al.*) **180,** 343
Seminal plasma, Fractionation of rat seminal plasma and identification of the fraction with immunosuppressive activity in vivo (Shakespeare) **180,** 365, *P*
Seminal vesicle, Cytochemical localisation and characterisation of proteoglycans (glycosaminoglycans) in the epithelial-stromal interface of the seminal vesicle of the guinea pig (Chan & Wong) **180,** 41
Sensory innervation, RT97- and calcitonin gene-related peptide-like immunoreactivity in lumbar intervertebral discs and adjacent tissue from the rat (McCarthy, *et al.*) **180,** 15
Sensory nerve growth factor, Is a sensory nerve growth factor defect involved in the polyneuropathy of leprosy? (Crawford & Hobbs) **180,** 364, *P*
Sensory neurons, The effects of NGF on the survival in vitro of adult and aged mouse sensory neurons (Jiang & Smith) **180,** 364, *P*
Sex differentiation, Gonadal sex differentiation in embryos of the quail (Perrin) **180,** 353, *P*
Sex identification, Costal cartilage calcification as an aid to the identification of sex from human skeletal remains (Powell) **180,** 357, *P*
Sinus hairs, The morphology and innervation of facial vibrissae in the tammar wallaby, *Macropus eugenii* (Marotte, *et al.*) **180,** 401
Situs inversus, Situs inversus in larvae of *Xenopus laevis* following excision operations (Bates) **180,** 372, *dem*
A case of complete situs inversus associated with dextrocardia (Skidmore & Mitchell) **180,** 373, *dem*
Skeletal malformations, Malformations for the ribs and sternum in two medieval human skeletons (Wakely & Diack) **180,** 373, *dem*
Skeletal pattern, The healing and consequences on skeletal pattern of wounds in the AER of the chick wing bud (McCullagh & Wilson) **180,** 354, *P*
Skin, Permeability of the skin (Elias) **180,** 361, *P*
The skin as an immunological organ (Stingl) **180,** 361, *P*
Cell kinetics of the skin (Wright) **180,** 361, *P*
'Out damned spot' – a melanocyte saga (Breathnach) **180,** 361, *P*
Dermo-epidermal junction (Eady) **180,** 361, *P*
Bioengineering of the skin (Marks) **180,** 362, *P*
UV light effect on the skin (Hawk) **180,** 362, *P*
The morphology of healing in rat skin after partial body electron irradiation (Wang, *et al.*) **180,** 379, *dem*
Comparison of the effects of moist and dry conditions on the process of angiogenesis during dermal repair (Dyson, *et al.*) **180,** 380, *dem*
Tissue reactions induced by hydrocolloid wound dressings (Leek & Barlow) **180,** 545
Skin equivalent, Skin equivalent (Riches) **180,** 362, *P*
Skull, The foramen meningo-orbitale and its relationship to the development of the ophthalmic artery (Geourgiou & Cassell) **180,** 119
Structural variations in the jugular foramen of the human skull (Hatiboğlu & Anil) **180,** 191
Interference with interparietal growth in human skull by the tectum synoticum posterior (Niida, *et al.*) **180,** 197
A rare anomaly of 5 ossicles in the pre-interparietal part of the squamous bones in north Indians (Gopinathan) **180,** 201
Small intestine, Binding of lectins to rat small intestine (Schumacher, *et al.*) **180,** 380, *dem*
Southern African cadavers, High incidence of the median artery of the forearm in a sample of recent Southern African cadavers (Henneberg & George) **180,** 185
Spinal cord, The effects of acetylcholine on the outgrowth of mammalian spinal cord neurites in vitro (Owen & Bird) **180,** 371, *dem*
Spinal isolation, Fibre size and adaptations to spinal isolation and cyclical passive stretch in cat hindlimb (Roy, *et al.*) **180,** 491
Squamous bones, A rare anomaly of 5 ossicles in the pre-interparietal part of the squamous bones in north Indians (Gopinathan) **180,** 201
Stereology, A stereological analysis of kidney structure of honeyeater birds (Meliphagidae) inhabiting either arid or wet environments (Casotti & Richardson) **180,** 281
Sternum, Malformations for the ribs and sternum in two medieval human skeletons (Wakely & Diack) **180,** 373, *dem*
Stomach, H^+K^+ATPase and carbonic anhydrase in gastric parietal cells (MacNaught & Firth) **180,** 368, *P*
The distribution of parietal and G-cells in the developing human stomach (Kelly) **180,** 368, *P*
Radiation effects on the keratinised stratified squamous epithelium of the mouse stomach and associated microflora (Nunn, *et al.*) **180,** 379, *dem*
Striatum, Interactions in co-culture between previously dissociated fetal rat striatal neurons and explants of adrenal gland (Bird) **180,** 370, *dem*
Submandibular ganglion, The intraglandular submandibular ganglion of postnatal and adult rats. I. A light and electron microscope study (Ng, *et al.*) **180,** 305
Subplate neurons, Synaptic input to subplate neurons in the cat: infragranular neurons provide synaptic input to underlying subplate cells during the early postnatal neocortical development. A light and electron microscopical study (Lowenstein & Shering) **180,** 383, *dem*
Substance P, Immunocytochemical localisation of substance P-like nerves in the cardiac ganglia of the monkey (*Macaca fascicularis*) (Tay & Wong) **180,** 239
Nerve fibre networks immunoreactive for substance P (SP) and for calcitonin gene related peptide (CGRP) increase dramatically in the rat superior cervical sympathetic ganglion following preganglionic denervation (Zaidi & Matthews) **180,** 363, *P*
Superior cervical ganglion, Nerve fibre networks immunoreactive for substance P (SP) and for calcitonin gene related peptide (CGRP) increase dramatically in the rat superior cervical sympathetic ganglion following preganglionic denervation (Zaidi & Matthews) **180,** 363, *P*
Stimulant-induced exocytosis in the chronically denervated superior cervical sympathetic ganglion (SCG) of the rat (Zaini & Matthews) **180,** 378, *dem*
Superior gluteal nerve, The cutaneous branches of the superior gluteal nerve with special reference to the nerve to tensor fascia lata (Akita, *et al.*) **180,** 105
Supraoptic nucleus, Cytoarchitectonic and quantitative Golgi study of the hedgehog supraoptic nucleus (Caminero, *et al.*) **180,** 31
Synaptic input, Synaptic input to subplate neurons in the cat: infragranular neurons provide synaptic input to underlying subplate cells during the early postnatal neocortical development. A light and electron microscopical study (Lowenstein & Shering) **180,** 383, *dem*

Tammar wallaby, The morphology and innervation of facial vibrissae in the tammar wallaby, *Macropus eugenii* (Marotte, *et al.*) **180,** 401
Taurodontism, A comparison of tooth structure in Neanderthals and early *Homo sapiens sapiens:* a radiographic study (Zilberman & Smith) **180,** 387
Tectum synoticum posterior, Interference with interparietal growth in human skull by the tectum synoticum posterior (Niida, *et al.*) **180,** 197
Teeth, A comparison of tooth structure in Neanderthals and early *Homo sapiens sapiens:* a radiographic study (Zilberman & Smith) **180,** 387
Comparative morphology of the mandibulodental complex in wild and domestic canids (Kieser & Groeneveld) **180,** 419
Teleosts, Cartilage and related tissues in the fins and trunk of teleosts (Benjamin, *et al.*) **180,** 370, *dem*
Distribution of enkephalin-like immunoreactivity in the central nervous system of the rainbow trout: an immunocytochemical study (Vecino, *et al.*) **180,** 435
Tendon, The structure of the insertions of the tendons of biceps brachii, triceps and brachialis in elderly dissecting room cadavers (Benjamin, *et al.*) **180,** 327
Relationships between structure and function of the insertions of the tendons of brachialis, biceps and triceps in man (Benjamin, *et al.*) **180,** 369, *dem*

Testis, A quantitative description of the epididymis and its microvasculature: an age-related study in the rat (Markey & Meyer) **180,** 255
Testudo graeca, The orbital glands of the chelonians *Pseudemys scripta* and *Testudo graeca:* comparative histological, histochemical and ultrasound investigations (Chieffi Baccari, *et al.*) **180,** 1
Tetraploidy, Morphological features of homozygous tetraploid mouse embryos (Kaufman) **180,** 375, *dem*
Postcranial morphological features of homozygous tetraploid mouse embryos (Kaufman) **180,** 521
Thymulin, Factors controlling the release of thymulin from the thymus: a role for ACTH (Kendall, *et al.*) **180,** 365, *P*
Thymus, Factors controlling the release of thymulin from the thymus: a role for ACTH (Kendall, *et al.*) **180,** 365, *P*
Tonsil, Distribution of antigen-presenting cells in tonsillar epithelium (Perry & Mustafa) **180,** 365, *P*
Trachea, Intracellular axonemes within ciliated cells in the tracheal epithelium of domestic pigs (Radner & Stockinger) **180,** 25
Tractus solitarius, The effect of ageing on the lateral part of the nucleus of the solitary tract and the parabrachial nuclear complex of the mouse (Sturrock) **180,** 360, *P*
Triceps brachii, The structure of the insertions of the tendons of biceps brachii, triceps and brachialis in elderly dissecting room cadavers (Benjamin, *et al.*) **180,** 327
Relationships between structure and function of the insertions of the tendons of brachialis, biceps and triceps in man (Benjamin, *et al.*) **180,** 369, *dem*
Triturus marmoratus, Characterisation of secondary spermatocytes in the marbled newt (*Triturus marmoratus*) (Fraile, *et al.*) **180,** 81
Trout, The structure and development of the 'plana semilunata' of the labyrinth of the trout (Becerra & Anadón) **180,** 247
Tufted capuchin monkey, Anatomical aspects of the lacrimal gland of the tufted capuchin (*Cebus apella*) (Veiga Neto, *et al.*) **180,** 75
Ulnar nerve, A variant of flexor carpi ulnaris causing ulnar nerve compression (Al-Quattan & Duerksen) **180,** 189
Ultrasound, The effect of therapeutic ultrasound on wound contraction in the rat (Hart & Dyson) **180,** 380, *dem*
Ultraviolet light, UV light effect on the skin (Hawk) **180,** 362, *P*
Uterus, Lectin histochemistry of rat uteroplacental tissues (Bulmer, *et al.*) **180,** 381, *dem*

Vasa vasorum, The vasa vasorum of the rabbit carotid artery (Barker, *et al.*) **180,** 225
The vasa vasorum of the rabbit carotid artery (Barker) **180,** 356, *P*
Vertebral shape, The inheritance of vertebral shape in the mouse. I. A study using Fourier analysis to examine patterns of inheritance in the morphology of cervical and upper thoracic vertebrae (Johnson, *et al.*) **180,** 507
Vibrissae, The morphology and innervation of facial vibrissae in the tammar wallaby, *Macropus eugenii* (Marotte, *et al.*) **180,** 401
Visual cortex, Prenatal development of GABA immunoreactivity in human visual cortex (Garey & Yan) **180,** 359, *P*

Wing bud, The healing and consequences on skeletal pattern of wounds in the AER of the chick wing bud (McCullagh & Wilson) **180,** 354, *P*
Wound contraction, The effect of therapeutic ultrasound on wound contraction in the rat (Hart & Dyson) **180,** 380, *dem*
Wounds, The healing and consequences on skeletal pattern of wounds in the AER of the chick wing bud (McCullagh & Wilson) **180,** 354, *P*
Tissue reactions induced by hydrocolloid wound dressings (Leek & Barlow) **180,** 545

Xenopus laevis, Situs inversus in larvae of *Xenopus laevis* following excision operations (Bates) **180,** 372, *dem*
